**The 1839 Awards has announced the winners of its 2025 Art of Storytelling Contest.**

This contest recognizes exceptional talent that demonstrates the enduring power of the art of photography from around the world.

This year's jury included esteemed representatives from the Whitney Museum of American Art, the University of Zurich, Phaidon Press, and Dwell. With submissions received from 75 countries, the winning images are diverse and powerful, inviting us to explore stories across cultures and environments, from the depths of the ocean to regions rarely seen by the global public.

Together, these works highlight our photography community's unique ability to tell meaningful stories or to explore the medium's conceptual limits, offering intimate perspectives that transcend borders and invite viewers to better understand the world through the eyes of exceptional visual storytellers.
